## Mod<sup>2</sup>™ Recessed Wall/Wash

The Mod<sup>2</sup> Recessed Wall/Wash is a 4" wide recessed luminaire designed for wall washing applications. The asymmetric reflector effectively washes the wall with light, while complementary optical elements control the fixture brightness to avoid glare.

### Design elements

- ▮ Narrow fixture opening enables luminaire to blend into ceiling
- ▮ High performance fixture for lighting chalkboards or whiteboards
- ▮ Ideal for retail applications that require vertical surface lighting on merchandise
- ▮ Continuous row mounting available

A painted reflector, shown here with the luminaire not powered, controls the fixture's brightness.

Features	Benefits
Narrow fixture opening	Allows fixture to blend into any ceiling
Advanced optical design	Provides uniform wall wash lighting
Choice of lamping	T5, T5HO and T8 for plaster/drywall ceilings and T5, T5HO for grid ceilings
Optional regressed soft glow lens	Completely shields lamp from view to minimize glare concerns
Painted front reflector	Controls brightness from normal viewing angles
C2C Silver Certified	Ensures that the product and the manufacturing meet sustainability criteria
