

Wall/Slot® 8400

The Wall/Slot 8400 is a perimeter luminaire that effectively lights the upper wall at the ceiling line. A smaller profile and shallower plenum than the 85N, the Wall/Slot 8400 provides a 6-1/2" wide by 6-5/8" deep luminaire for one lamp, with two positions for optional lenses or baffles.

Design elements

- ▮ Provides continuous, direct wall lighting from a 6-1/2" slot
- ▮ White baffle or soft glow lens can be hidden in the lamp chamber
- ▮ Soft glow lens can also be installed below the lamp chamber but regressed above the ceiling
- ▮ System connectors allow continuous slot around a room, even around corners
- ▮ Easy installation with wall-mounting rail and hook-and-lock system
- ▮ C2C Silver Certified^{CM}
