

SAE Litewave™

SAE Litewave fixtures from Litecontrol provide soft, low-glare lighting from 2x2, 2x4 and 1x4 recessed fixtures. The perforated baskets provide balanced brightness across the fixture, and are available in either a center, two-sided or one-sided asymmetric configuration. As part of the Simple-Affordable-Efficient SAE family, Litewave products are designed to meet the needs of value-driven projects. And, since we include these products in our LiteSpeed quick ship program, Litewave can accommodate the most demanding of delivery schedules.
